

The drawing consists of two views of a reinforced concrete column:

- Front View (Left):** Shows a column with a total height of 6700 mm. The top section has a height of 1500 mm. The column is 300 mm wide. The base is at elevation -0.100, and the top is at +6.600. A dashed line indicates the centerline.
- Side View (Right):** Shows the column with a total height of 6700 mm. The top section has a height of 1000 mm. The column is 300 mm wide. The base is at elevation -0.100, and the top is at +6.600. The reinforcement is shown with a grid pattern. The total length of the reinforcement is 22x300=6600 mm. The column is divided into three sections: 1 (top), 2 (middle), and 3 (bottom). The middle section (2) has a height of 500 mm. The bottom section (3) has a height of 50 mm.

Technical drawing of a rectangular plate with a central slot and four holes. The drawing is labeled "1-1" at the top. The plate has a total width of 300 and a total height of 300. The central slot has a width of 250 and a height of 250. The four holes are located at the corners of the plate, with a diameter of 30. The distance from the center of the plate to the center of each hole is 125 horizontally and 125 vertically. The drawing includes dimension lines and labels: "1" for the plate, "2" for the central slot, "3" for the holes, and "4" for the corner holes. The dimensions are given in millimeters (mm).
